[A. P. NIGHT REPORT.] CHICAGO, Feb. 13.—After a heated debate the Resolutions Committee of the anti-trust conference decided to repayment of actual value, and without payment for "watered stock or other fictitious values."

There was a sharp discussion in the

commistee and several tilts between members brought on by an effort to make the platform read as it had been drawn up, that the government should seize the railroads on payment of actual values, "and without payment for franchise values."

Unanimous action was finally obtained by cutting out the words "franchise tranchise was the several tranchise tranchises."

"Your feathers have all been plucked. "Your feathers have all been blucked already," retorted his lowa opponent. Many startling statements were made before the committee, among them one by President M. L. Lockwood, in which he said that before the government ownership was finally secured it would be necessary to impeach at least one Justice of the Federal Supreme Court.

The committee also considered a proposition to recommend to the attention of Congress Senator Pettigrew's bill for government ownership of railroads, but it was voted down.

[A. P. NIGHT REPORT.]

PITTSBURGH, Feb. 12. — Henry Frick filed a bill in equity today in the Court of Common Pleas, No. 1, of Allegheny county, against Andrew Carnegie and the Carnegie Steel Company, Limited, praying:

First — For a decree that the pretended transfer of his interests in the company was, and is, null and void, and that he is still the owner of all such interest and is entitled in every lawful way to represent and act for the same.

Seepnd—For an injunction restraining the defendants from any interference with his interest in the said company, and from excluding him from participation in the care and management of the assets and business.

Third—A decree ordering the defendants to cancel upon the books of the firm any assignment or transfer herectofore made, or pretended to be made, to said association of the plaintiff's interest in the firm.

Fourth—A decree ordering the defendants to cancel and erase all interests upon the books of the firm of the Carnegie Steel Company, Limited, of unfair and improper valuations of its assets, and of the plaintiff's interest.

by themselves of said business and assets, and shall continue to exclude the plaintiff from his interest in the business and assets of the said firm, that the court will thereupon allow the plaintiff to declare the said firm of the Carnegie Steel Company, Limited, dis-solved, and appoint a receiver to take charge of all the business and assets of the said firm, permitting said re-ceiver to fulfill the unperformed contracts and do whatever shall be necestracts and do whatever shall be necessary in and about the proper liquidation of its affairs, and that after the conversion of the entire assets of the company into money, and the payment of the debts of the said company, the court will then contribute any funds thereof among the partners in propor-tion to their interests. Sixth—That an account be taken be-

tween Carnegie and the plaintiff, whereby Carnegie shall be charged with all the losses, expenses and damage he has caused by his illegal and fraudulent conduct, and that if Carnegie persists in his said fraudulent

scheme and refuses the offers hereinbefore made, and thus causes the actual dissolution of the firm, all losses incurred by the plaintiff by reason of the said dissolution and forced winding up of the firm shall be charged against him, and that he shall be degreed to make good and pay to the plaintiff the difference between what his intenset was fafrly worth on or about Pebruary 1, 1900, and the amount fire shall receive through the decree of this court in final liquidation and settlement of the said firm.

The bill in equity is quite lengthy and, summarised by Willis L. Cook, counsel for Frick, is as follows:

In 1892, there were two limited partnerships—(1) called Carnerge Broa. & Co., Limited, with a capital of \$5,000,000, which made steel rails and owned only the Bdgar Thomson Steel Rail Mill in Braddock township, and (2) called Carnegie. Phipps & Co., Limited, with a capital of \$5,000,000, which made all kinds of steel plates, structural material, iron forgings, made the material for the built bridges, made armor plates and made material for the same.

This latter firm owned the upper and

This latter firm owned the upper and lower mills in Pittsburgh, the extensive Homestead mills at Homestead, the Keystone Bridge Works in Pittsburgh, the armor-plate mill near Homestead, the Hartman Steel Works in Beaber county and other properties. Carnegie owned over 50 per cent. of each of the old firms, and he, with Frick, Phipps and others owning interests in each, formed, in 1892, what constituted a new partnership, called the Carnegie Steel Company, Limited. In this Carnegie retained over 50 per cent., and now has 58½ per cent., while Frick has 5 per cent. Both old firms were merged into the new, which had a capital of \$25,000,000, and operated all the old works. This new firm was under the immediate care and supervision of Frick, as chairman, from 1892 to December, 1899. It greatly enlarged the capacity of its different works, enlarged their output, and purchased other plants, ore, mines, etc.

Carnegie lived in New York, passed much of his time abroad, remaining at one time for eighteen consecutive months. He did not pretend to manage the current business, although he was consulted as to the important matters. The business from 1892 to 1909 was enormously profitable, growing by leaps and jumps from year to year, until, in 1899, the firm actually made on low-priced contracts in profits, after paying all expenses of all idnds, \$21,000,000. In November, 1892, Carnegie estimated the net profits for 1900 at 340,000,000, and Frick then estimated them at 342,000,000.

Carnegie valued the entire property at over \$250,000,000, or \$500,000,000. In May, 1899, Carnegie and the property on the London market for £100,000,000, or \$500,000,000. In May, 1899, Carnegie these self-mated of his self-them at 342,000,000.

Carnegie valued the entire property at over \$250,000,000, or \$500,000,000. In May, 1899, Carnegie these self-mated of his his resignation and subsequently, on the little day of January, 1900, after Carnegie had thus deprived him of his office, he demanded of Frick that he (Frick) should sell to the firm hi

secretely, without Frick's knowledge or consent, attempted to carry out a scheme, which, if successful, welld enable Carnegie, so Carnegie hoped, to confiscate Frick's interests in the firm at probably not much over 33 per cent. of its real value; that is to say, not over 36,000,000, for what, on the basis of Carnegie's option, was worth 316, 238,000. This scheme, Frick says, he can prove, was to reinstate and make operative an unexecuted and abandoned so-called ironclad agreement of 1887, which related solely to Carnegie Bros. & Co., Limited, and never did include the Carnegie Steel Company, Limited, and also to attempt to make binding on (CONTINUED ON FOURTH 1800).

ter where an attack was not under contemplation is regarded as scientific by Roberts's admirers among the veterans here.

There is little news from the real theater of war, and the press censor does not intend that there shall be any for a day or two. The War Office has posted a bulletin from Kekewichs, recounting the bombardment of the town Thursday, and the small engagement of the following day. The Times has a special account of the retirement of 1400 refugees from West Barkely district, where they had refused to fight on the Boer side, and also an estimate of the large Dutch losses at Koodoosberg. The most significant dispatch is a private one received at Shrewsbury, to the effect that Zoutpan's Drift had been sleased by the Scots Greys under Gen. Elliott Wood. This drift lies southeast of Orange River station, and is on the road leading to Jacobsdal. The Scots Greys will naturally be with the cavairy force which French is expected to lead into the Free State.

This is almost the only point to indicate the direction of Roberts's campaign, now that he has concentrated a large force on the line between the Orange and Modder rivers. How large that army is cannot be stated with any degree of confidence. What Roberts will do with it is he great problem of the campaign, which he has opened with a fine display of strategy. The creakers and military martinets who insist upon conscription as the only proper system for a scientific army have rallied in force, and refused to be comforted by Wyndham's optimism. Bores of every caliber took possession of yesterday's small-fire debate in the Commons. More attractive entertainment was offered at Her Majesty's Theater, where Mrs. Arthur Paget's theatricals drew a crowded house at record prices for the benefit of the families of the guards. A dozen academicians had arranged there living pictures, and scores of English beauties were on the stage. Nearly all the royalties in London were present, and the smartest sets took possession of the boxes, stalls and galleries. Belies o and the smartest sets took possession of the boxes, stalls and galleries. Belies of the West End sold programmes, and of the West End sold programmes, and colonels of the guards were ushers. The Masque of Peace and War was charming in colon and sentiment, and the tableaux were most effective, especially the oriental pictures and those representing the Georgian and Tudor periods. Miss Muriel Wilson, as War, was perhaps the most striking figure.

Raiph in a letter to the Daily Mail from Modder River, says:
"British defeats at the hands of the Boers are due to the fact that the methods of modern warfare have been brought to a pause by the demonstrated power of the weapons of today. The essential qualities of the army of twenty years ago are no longer the supreme necessities for success. The man behind the gun stands more supreme than ever.

"Dig a trênch and line it with good shots, supported by modern artillery, and no enemy can advance in the face of them. They may be outflanked or starved, but, while their ammunition

shots, supported by modern artillery, and no enemy can advance in the face of them. They may be outflanked or starved, but, while their ammunition holds out, none can oust them, for they can fill the whole plain over a radius of at least four thousand yards with such a withering blast of shrapnel and rifle bullets that no troops can stand in the open before it."

Speaking of Magersfontein, he says: "The Boers there demonstrated the fact that given a plain, field glasses, modern magazine rifles 'and quickfiring small guns and the whole German army itself could not dislodge the 55,000 men of the two Boer republics by a frontal attack on those grass-edged trenches. Not 56,000 Britsish could have beaten those 15,000 Boers, except at such a sacrifice of life as no commander would require or could be pardoned for occasioning. "For a frontal attack she old military manuals declared that the attacking force must be three times that of the desending force, but today, with the new weapons, it is safe that ten men must attack one.

"One of the most formidable new conditions of war which we are experiencing is one that we have never, next to never, seen before, for there are men in our army who have never seen a Boer in battle. I know of officers who have seen only one or two in one battle and five or six in another.

CONFIDENCE IN ROBERTS.

ENGLAND'S SUSTAINING HOPE. NEW YORK, Feb. 13.—The striking feature of the war situation in London is the boundless confidency reposed in Lord Roberts. Gen. Buller's report of his third repuise, published today, arouses no harsh oriticism, for some of the experts say the attack was only a feint, ordered by Lord Roberts with a view of keeping Gen. Joubert busy and preventing him from sending reinforcements to Gen. Cromis at Kimberley. The pitiful condition of the inhabitants of Kimberley, who are dying of disease at an appailing rate, leads to the belief that Lord Roberts with his the belief that Lord Roberts with his army of 35,000 men will endeavor to raise the siege at once. On the other hand, experts say that invasion of the Free State would be wiser tactics. But whatever Lord Roberts does will be accepted as the best thing to do.

The Boer raid in Zululand continues to alarm Natal. It is believed the Transvalers will sweep vast herds of cattle out of Zululand, and then raid northeastern Natal.

A dispatch from Pietermaritzburg states that fresh meat is abundant in Natal, thirty oxen being slaughtered daily, and that the Boers have over 100 guns between the Tugela River and Ladysmith, and the Boer artillery fire greatly impresses all who see it, the guns being mounted in almost impossible places.

News Produces an Unpleasant Impression at London-Commandant Delaney Performed a Double Turning Movement-Boer Mastery of the District Furthers the Insurrection

IA. P. NIGHT REPORT.

LONDON, Feb. 14, 4:20 a.m.—[By Atlantic Cable.] The news of the day is the enforced retirement of the British from the Colesberg district under necting De Aar and Orange River Military observers do not regard the more than a menace. Nevertheles as more than a menace. Nevertheless, the news produces an unpleasant impression here. Gen. French had maneuvered the Boers out of Rensberg in December. January 1 it was reported that he could take Colesberg in two days with reinforcements. These were sent, but the Boers were also reinforced. Since then the British lines have been extended east and west, so that with the opening of this week they constitute a great horseshoe, twenty-five miles in length. The lines were not continuous, but all the strong positions were held.

Gen. French, when he joined Gen. Roberts, took most of his cavalry. Gen. Clements was left with the infantry to hold the Boers in check, but Commandant Delaney, with a double turning movement, has compelled the

sides threatening Roberts's communication.

The Boer mastery of the district has caused a spread of the insurection, but this, no doubt, will be promptly suppressed, as large British forces arrayallable not far away.

The indications as to Gen. Builer's temediate intentions are contradictory. One informant, who has intimate relations with the War Office, predicts a movement within the next day or two. A number of correspondents who have been with Gen. Builer have gone to Durban for a few days' rest, under the impression that nothing is to be done immediately.

MATTER OF FUNDS.

APPEAL BY LONDON LADIES. LONDON, Feb. 13.—(By Atlantic Cable.) As the conviction grows in Great Britain that the war will be long, the efforts for providing for the sick and wounded and the families of the sold diers at the front are redoubling. There is scarcely a woman in England, who, in addition to mailing articles of clothing for those in the field and in the hospitals, is not working for and contributing to some social fund. Mrs. Arthur Paget's entertainment tonight brought in over £5000 for the families of the Household troops, in which her husband is a colonel of the facets due to the Manual Warns. NEW YORK, Feb. 13.—The striking feature of the war situation in London is the boundless confidency reposed in Lord Roberts. Gen. Buller's report of his third repuise, published today, arouses no harsh criticism, for some of the experts say the attack was only a feint, ordered by Lord Roberts with a view of keeping Gen. Joubert busy and preventing him from sending reinforcements to Gen. Cronje at Kimberley. The pitiful condition of the inhabitants of Kimberley, who are dying of disease at an appailing rate, leads to the belief that Lord Roberts with his army of 35,000 men will endeavor to

have issued the folowing appeal to the British residents of the United States:

"We are endeavoring to address an appeal to our fellow-gountrymen, who, although absent from their native land, are mixed up heart and soul in its prosperity. America has generously given and is still maintaining a hospital ship for our wounded soldiers. This munificence is deeply appreciated in our country. It is not to America that we now appeal. It is to those who cannot for various reasons fight at their country's call. All the bravest of Great Britain's soldiers will shortly be at the front. We should ask their absent comrades to prove by their liberality that they are mindful of the sufferings of those who fall bravely in keeping up the traditions of British soldiers.

CHICAGO, Feb. 13.—A Lincoln dinner was given at the Lakeside Club last night under the auspices of the Seven O'clock Club. The speakers were Gen. John C. Black, Rev. Thomas E. Sherman, Judge C. C. Kohlsaat and John Barton Payne. Rev. Father Sherman, who is a son of Gen. William T. Sherman, told of events in President Lincoln's life, especially during the days of the war, as he had heard them told by his father. Father Sherman concluded his speech as follows:

"At City Point, Lincoln, late in the war, met my father with Grant and Porter. He said: "If we could only end the war without further blood shed; do anything in your power to bring about this end. When, after Lincoln's assassination, my father accorded liberal terms to the defeated Confederates under Johnston, he was made a target for universal abuse. But yet he bore in mind that he acted on the principle advocated by the great Lincoln. The North would have grown pale had it known how magnanimous Lincoln would have been in the treatment of the conquered South, and though the honor of my father was soon vindicated, I make this statement still further in justice to his memory. Had Lincoln lived, some of the pages of history would not have been written. The promptings of his kindly nature would have prevented much of the bitterness existing after the war."

NEW YORK, Feb. 13.—The Evening World today says that Cecil Leslie, "pgress agent" and employe of the "Miller 520-per-cent. swindle," has made a long confession. Briefly epitomized, Leslie is represented as saying: "The Franklin syndicate was a colossal bunco game. Some of the men interested in the concern were formerly managers of Lyons & Co., and the E. S. Relatives of the Deceased Refused to Let His Young Widow View the Remains, but Soldiers Took a Hand and Allowed Her to Weep Over Her

(BY DIRECT WIRE TO THE TIMES.)

KOKOMO (Ind.,) Feb. 13.—(Exclusive Dispatch.) There was an exciting time at a soldier's funeral today, the result of a family feud. When Sergt, Milo Harian left for Manila two years ago he was married to a Sharpsville girl. Harian's relatives would not recognize the marriage, and would have nothing to do with her. When Harian returned home last fall with a Mauser builet in his thigh, he was sent to Iowa to spend the winter, his girl wife not being al-

"Suppose this government had fortifications at the terminal of the canal. In time of war it might be considered advisable to reinforce the Atlantic fleet. The vessels of the Pacific station would enter at Brito for instance, and proceed to Lake Nicaragua. The destruction of locks on the eastern and western slopes by the use of dynamite, perfectly feasible at might, would result in the penning up of this section of the American force. Even supposing that the fleet did succeed in making the passage, and after getting through after the canal locks were destroyed, there would be grave danger of the Pacific Slope being unprotected.

"On the other hand, with the neutrality of the canal guaranteed by all nations of the world there would be less danger of its being destroyed. Besides, the control of the Caribbean Sea assured to us by our natural position and the acquisition of Puerto Rico and the contemplated purchase of the Virgin Islands, will enable us to protect the eastern end of the waterway. NEW YORK, Feb. 13.—It is expected that the bill repealing the Horton box-ling law will pass the Assembly tomorriew, and that it will pass the Senate with equal facility. The bill as amended sets the date of its becoming at law as September 1. It is believed that immediately upon the passage of the bill the enemies of prize fighting will begin an agitation for the rigid enforcement of the Horton law during the remainder of its life, and thus seek to prevent the Corbett-Jeffries battle. Sirict construction of the Horton law forbids prize fighting.

towns, are less under capitalistic control. The capitalist is reaching out for dominion in that field also, and he is acquiring it with great rapidity. The country editor, with large necessities and meager revenues, is often an easy subject.

"The fact must be conceded that in the main the metropolitan press of this country is no longer a reflex of popular sentiment, or a reliable advocate of common interest. The metropolitan press is losing its influence because it is eliminating its personality, and because it is too often restrained by the censorship from expressing an honest opinion. The purposes that lie behind its utterances are too uncertain to command the respect or influence or confidence of the public. The influence of the metropolitan press through its editorial columns is nearly gone.

"The poor men of America are going to have their newspapers, never fear; and they will have papers free from the censorship of the trusts and the capitalistic class. Such papers may be small and unpretentious, but they will be honest and strong of purpose. The censorship of the American press by the trust power cannot be complete, and it cannot be permanent. Providence is raising up the weak to confound the mighty."

H. L. Chaffee of Minnesota, C. J. Buell of Minnesota and C. A. Windle of Illinois also spoke on topics pertaining to trusts.

"In their origin and throughout their development, trusts, great and small, are essentially imperialistic. Their fruit, however alluring and tempting, ripens only in the deadly shade of despotism. They are simply intolerable in a country whose settled policy is that of freedom. A republic whose industries are dominated by trusts is already stricken with a fatal maiady, a deadly paralysis, and can only be rescued by united and heroic action. Where the leading industries are dominated by trusts, the government may be republican in form, but it will be found to be monarchical in spirit and administration. The trust in its last analysis and best definition, is simply organized criminal aggression in bueiness.

Mr. Wettmore declared on his personal experience that the trust promoter is the worst enemy of the human race. The protective tariff, he declared, was the foundation of the modern trust and its concomitant evils. The farmer, he asserted, now feels safe from the encroachment of trusts but there is nothing to prevent the monopolies from entering agricultural fields when the other avenues of industry have been exhausted.

STRONG SPEAKERS BROUGHT OUT CHICAGO, Feb. 13.—The evening session of the Anti-Trust Conference was in the form of a mass-meeting which was held at the Auditorium and brought out some of the strongest speakers among the delegates, includ-ing John P. Altgeld, E. S. Monnett, Samuel M. Jones, John Crosby, George Fred Williams and Tom L. Johnson. President Lockwood of the Anti-Trust Lesgue and tonight:

Fred Williams and Tom L. Johnson.

President Lockwood of the Anti-Trust
League said tonight:

"This is a remarkable gathering in
many respects. Every delegate paid
his own railroad fare here, and the
speakers are all volunteers. The
league has not spent a dollar in promoting the movement. The delegates
traveled many miles for a purely unselfish motive. This is not like a politleal convention, as we have no promises to make or offices to give. We are
here to fight for a principle. I firmly
believe that this gathering is the beginning of a movement which will wips
every malevolent trust from the country within a few years. It is unfair
to charge that this is a political scheme
planned in the interest of any one
candidate or set of candidates. We
have members of all parties and classes
in our ranks and we are all wocking
with unselfish motives for the betterment of mankind."

President Lockwood regretted that
W. J. Bryan's name was mentioned in
the discussion, and declared it was his
intention to keep politics out of the
conference. It has been decided to
limit all future addresses in the conference to twenty minutes, in order to
get through with the programme.

American flags were carried by a
number of persons in the Auditorium
meeting tonight. The stage was filled
with prominent akti-trust men. Judge
William Prentiss called the meeting to
order, and introduced President Lockwood of the National Anti-Trust
League, as presiding officer. Mr. Lockwood made a lengthy address.

Frank Monnett, former AttorneyGeneral of Ohio, who was today made
permanent chairman of the convention,
was the next speaker.
George Fred Williams was then in-

permanent chairman of the convention, was the next speaker.
George Fred Williams was then introduced. Mr. Williams declared that the anti-monopoly forces must be organized for the overthrow of the spirit of greed and commercialism, and that if neither of the old political parties was found capable of defending the rights of the people, then a new one must be formed. He declared, however, his belief that the Democratic party "has cleansed and purified itself for this very contest."

Mayor Jones of Toledo was introduced, and cordially greeted. He made an extended speech.

When Mayor Jones concluded his address, he requested the audience to
join with him in singing "America."
Every man and woman in the vast auditorium arose, and the strains of the
anthem filled the building. During the
singing of the chorus, hundreds of flags
fluttered from the hands of those in
the seats and on the stage.
John G. Crosby of New York, Tom
L. Johnson, Congressman Lentz and
ex-Gov. Altgeld also spoke.

JUSTICE MORGAN'S COURT.

GOING AND M'LEAN ARRAIGNED DAISY NORTON'S TRIAL. Dr. J. W. Going and N. H. McLear Dr. J. W. Going and N. H. McLean were arraigned before Justice Morgan yesterday afternoon on charges of grand larceny. The complaint alleges that on or about November 9, 1899, the men took \$300 belonging to W. H. H. Young, a Whittier rancher.
Several weeks ago they were arraigned before Justice Austin on charges of obtaining money under false pretenses, on account of their dealings with Young, in which, it is claimed, they induced him to place \$300 in the hands of Going as a commission for inducing J. F. Casey, an alleged millionaire patient of Going's, to purchase Young's ranch. Casey turned out to be a pal of the others, and when Young demanded the return of his money he was unable to get it, and caused the arrest of the two men. Casey got a "hunch" and skipped.

At their preliminary examination, Going and McLean were held to answer to the Superior Court for trial, but when Dist.-Atty. Rives reviewed the evidence against them he decided that it would be safer to prosecute the defendants under charges of grand larceny.

This necessitated the filing of new

fendants under charges of grand larceny.

This necessitated the filing of new complaints against the men, and their rearraignment. Vesterday Justice Morgan set their preliminary examinations for the 19th inst. at 2 p.m., and fixed their bail at \$2500 each. They were unable to furnish bail, and went back to jail.

The trial of Daisy Norton was begun yesterday afternoon. The woman, in conjunction with her landlady, Jennie Caruthers, was arrested on complaint of Humane Officer Craig on January 26, charged with keeping her two-year-old son in a house of ill repute. The

Caruthers, was arrested on comptaint of Humane Officer Craig on January 26, charged with keeping her two-year-old son in a house of ill repute. The defense is fighting the allegation that the house in question bears such a reputation, and a number of policemen were put on the stand by the prosecution vesterday afternoon to testify as to its character. The trial will be resumed this morning.

Harry Harding, who was arrested on the 8th inst., on a charge of fast driving, came up for trial yesterday morning. He is an employe of Rivers Bros. The complaint charged that he drove over the crossing at First and Spring streets at a gait faster than six miles an hour. When arraigned one of his employers said that there must be some mistake about the matter, asserting that the animal in question could not be induced to travel at that rate of speed under any circumstances. Vesterday he sustained the reputation of his horse, and Harding was discharged.

FRICK'S FIGHT. CONTINUED FROM FIRST PAGE.)

at a meeting of the board of managers of the Carnegie Steel Company, Limited, held January 8, 1900, in Frick's absence, and passed false and misleading resolutions, whereby he attempted to make operative and reinstate the so-called iron-clad agreement of 1887, and also directed his copartners to sign the so-called agreement of 1887, and the so-called agreement of 1882, which neither he nor many of them had theretofore executed. All this, it is slieged, Carnegie did secretely and physosely conceal the knowledge thereof from Frick. Carnegie was enabled to control his partners because most of them still owed the firm money for their interests, and Carnegie, dominating the firm by a majority interest, they were dunwilling or unable to withstand his demands. Carnegie induced come of his copartners to sign the so-called agreement of 1892, and then, without warning, eprung upon Frick a notice, on January 15, 1900, which he has also eaused his copartners escretly to sign and which was based upon the pretended existence of the so-called iron-clad agreements.

Carnegie followed this notice by company, and he now pretends that he (Carnegie) can practically diotate to Frick's interests in the Carnegie Steel Company, and he now pretends that he (Carnegie) can practically diotate to Frick interests. He claims that Frick is not entitled to anything for the good will of the company; is not entitled to have his interests valued as of a growning concern, but that he (Carnegie) can use old and obsolete figures which he will take the interests. He claims that Frick is not entitled to anything for the good will of the company; is not entitled to the neighborhood of the hooks for years, in many respects unchanged, so as to reduce the value of Frick's interests to the neighborhood of the obsolute figures which have stood on the books for years, in many respects unchanged, so as to reduce the value of Frick's interests to the neighborhood of \$5,000,000.

Frick further says that never since 1837 has either firm attempted to force a par

ever was acquired under the socalled agreement of 1837, and none under the one of 1832, except that at
times, when the financial condition and
earning power of the company did
purchase the interests of three deceased partners, but an amicable and
satisfactory arrangement was had with
the representative of each. Neither, in
the whole history of both firms, was it
ever supposed that any partner had
placed himself in such position that
Carnegie could, through personal
malice, force him from the firm, and
that for Carnegie to attempt this in
1900, through the guise of proposed
agreements which looked to the honor
and well being of the firm, to gratify,
his personal malice, was most victous
and fraudulent misconstruction and
misuse of the same.

The bill alleges that the new partnership of the Carnegie Steel Company.
Limited, is not a limited, but a general
partnership, but Frick is unwilling to
take adavntage of what he believed
to be a limited partnership, until he
was adviced otherwise, after this controversy arose, and he therefore offers: (a) to sell his interests in the
firm at what the business men will
judge them fairly to be worth; (b) to
execute new papers making a valid
binding, limited partnership and to
continue the firm in all respects as it
was intended heretofore to do; (c) to
continue the firm all respects as it
was intended heretofore to do; (b) to
exicute in the firm and all are individually reliable, provided he
be allowed to participate in the
management, because to leave the sole
management to Carnegie would result,
eventually, as he (Frick) believes, in
financial loss; (e) if Carnegie refuses
all these offers, then he asks the court
to dissolve the partnership and have
a receiver appointed to sell the property and pay the debts and distribute
the balance.

Mr. McCook also called attention to
the fact that three of the oldest partners, Henry Phipps, Jr., Henry McCurry and F. T. F. Lovejoy and several smaller holders of interests are in
sympathy with Frick and opposed to

An error was discovered in the ordinance recently advertised, as a preliminary step looking to the calling of a bond election for the construction of an auxiliary steam plant to develop electricity. A new ordinance was drawn, and the formality of advertising will be gone through again. This will delay matters two weeks.

A resolution was passed ordering the improvement of Walnut street from Eighth to Eleventh, by grading, graveling and constructing cement curbs, gutters and sidewalks.

The January expenditures in the street department amounted to 36133.77. The collections were \$174.44. The month's collections in the City Marshal's office, including taxes and licenses, amounted to \$1993.55. Street Superintendent Finch was granted leave of absence to attend a meeting of the committee appointed at the annual convention of the League of California Municipalities to investigate the street laws of the State. The committee will meet in San Francisco, February 26.

SHORTAGE OF WATER.

ANAHEIM, Feb. 13.—[Regular respondence.] The condition of city's water supply has become a retr of serious concern to the city city's water supply has become a matter of serious concern to the city officials. During the last few months the flow of water from the wells at the city pumping plant has been dimining steadily. An official has stated that in case of a bad fire it is doubtful if the wells would stand the drain incident to the turning on of the fire pressure. Continued drought would seriously affect the domestic supply of the town before the season is over.

warded to the Adjutant-General today for a new military company, to be formed here. Information was received last week that there was an opening for a company at Anaheim, and its formation was immediately commenced. There has been a desire for several years among the young men of the town for a company, and several have been partially organized in the hope of gaining admission to the National Guard. Disappointment was met with each time, but the acceptance of the present company now seems assured.

Nevada City's Big Hotel Burns.

NEVADA. Feb. 13.—Fire broke out at 5:30 o'clock tonight in the attic of the Union Hotel, and within an hour the building was practically ruined. It was one of the largest hotels in Northern Central California, being three stories high and containing 100 rooms. The volunteer fire department had ten powerful streams of water playing in fifteen minutes after the first sound of the alarm. They stopped the flames from coming below the third story. Most of the furniture was saved, and but few guests lost anything. The total loss on the property is \$20,000.

Banksuptcy Petitions.

SAN FRANCISCO, Feb. 13.—The D. E. Allison Company, commission merchants on Washington street, filed a petition today in the United States District Court to be declared bankrupt. The Crocker-Woolworth Bank holds notes to the extent of \$10,000 against the firm. The firm also owes \$500 to other parties. Robert L. Boaz, store-keeper, also filed a petition in bankruptcy this morning. His liabilities are \$2312.61 and his assets \$1471.50. ACCUSED CLAIM ALIBI.

WON'T LEM DIE. HIGHTINDER GOES UP FOR LIFE.

IA P. DAT REPORT. MARYSVILLE, Feb. 13.—The trial of Lem Die, charged with the murder of Hoy Goom, in this city last Novem-

of Lem Die, charged with the murder of Hoy Goom, in this city last November, which has been going on in this city for the past week, resulted in a verdict of guilty, the jury fixing punishment at imprisonment for life.

The murder for which Lem Die has been convicted was the outgrowth of the late highbinder troubles in this city, Lem Die being a member of the Suey Sing Tong, while his victim belonged to the Hop Sing Tong.

By the conviction of Lem Die, it is thought that the agreements which have lately been effected tending toward a cessation of hostilities between the Hop Sing Tong and Suey Sing Tong, will be declared off, and that popping of pistols will once more beheard in Chinatown. Local officerare on the qui vive to prevent an outbreak, but as their numbers are limited, and the Chinese members of the Suey Sing Tong, whose brother member has just been convicted, are in a very resentful mood, it is believed that their best efforts can postpone for a short time, only, another conflict.

NOTICE TO COUNTY BOARDS.

A. P. NIGHT REPORT.]

SACRAMENTO, Feb. 13.—The State Board of Equalization today decided to send cut a circular to county assessors, dalling their attention to the opinion of the Attorney-General to the effect the: it is the duty of the State board to assess all fruit, oil, beer and survive as and acidity are defined to assess all fruit, oil, beer and survive as and acidity are defined to assess all fruit, oil, beer and survive as and acidity are defined to send to assess all fruit, oil, beer and survive as and acidity are defined to send to assess all fruit, oil, beer and survive as and acidity are defined to assess all fruit, oil, beer and survive as and acidity are defined to assess all fruit, oil, beer and survive as and acidity are defined to assess all fruit, oil, beer and survive as and acidity are defined to assess all fruit, oil, beer and survive as and the survive as and acidity are defined to a survive and the survive and the principal concentrated form.

The prin

opinion of the Attorney-General to the effect that it is the duty of the State board to assess all fruit, oil, beer and stock cars in the State belonging to foreign railroads, and of the county boards to assess the cars of all corporations other than railroads.

The decision means that foreign fruit and other car companies must pay taxes on the cars they operate in this State, and that foreign railroad companies must do likewise.

MAYOR PHELAN'S SECRETARY. 'FRISCO'S NEW POLICE CHIEF

SAN FRANCISCO, Feb. 13.—The Board of Police Commissioners tonight elected Col. William P. Sullivan, Jr., Chief of Rolice. Sullivan is at present secretary to Mayor Phelan.

Mayor Phelan has recognized the Police Commission by removing Commissioner Biggy, who has been acting as Chief of Police, and appointing in his steed D. I. Mailoney. The vacancy caused by the resignation of William Thomas has been filled by the appointment of ex-Superior Judge W. T. Wallace.

INSANE SOLDIERS.

MALADY DUE TO OUTPOST DUTY.

(A P EARLY AM. REPORT.)

SAN FRANCISCO, Feb. 13.—Eleven insane soldiers will today be sent from this city to the government hospital at Washington, and it is probable that about thirty more will go east during the week. During the last three months, nearly two hundred and fifty demented soldiers have been sent across the continent, and it is said that over two hundred more will soon arrive here from Manils. In nearly all cases the men are violently insane and the reputed cause of their trouble is the ceaseless vigilance required by outpost duty in the Philippines.

The average nervous woman gets a pain in the head as in figure 1 of this picture. She will show a pale, thin, emaciated face as in figure 2 Her heart flutters—no heart trouble, purely a functional derangement as in figure 2. The stomach is rebellious, gets gas or sour, or bleated, as in figure 4. Then the fiver becomes inactive, does not do its work regularly, is sluggish, as in figure 5.

These conditions are easily relieved by HUD-YAN. Why? For the reason that HUDYAN dissolves in the stomach, causes an active flow of digestive fluids, which passes into the intestines, converting the food into strength-giving elements.

Tou feel comfortable as soon as HUDYAN begins to do its intended work. You need not be alarmed about the heart. These flutterings are due to pressure of gas. The bloated glomach presses upon the heart. As soon as the gas passes into the lower intestines, the flutterings are stopped.

Take HUDYAN if your stomach is weak. Take HUDYAN if your nerves are on edge. When you feel like flying away or breaking into a loud laugh, or britable, you need HUD-YAN. Get R. HUDYAN does relieve. R causes. Has oured hundreds of nervous, irritable women.

With the first lesson of the HOME STUDY CIRCLE course on GOLDEN AGES OF LITERATURE, and promise yourself to allow nothing to interfere with your regular enjoyment of the remarkable series of literary papers which this course will present throughout February, March, April and May. It will be the rarest literary treat ever offered to newspaper readers, taking a bold sweep of the entire field from Zoroaster and Homer to Tennyson and Longfellow.

Dr. Edward Everett Hale of Boston, Dr. Parrott of Princeton, Professor Palmer of Yale, Professor More of Harvard, Professor Smith of the University of Wisconsin, Miss Vida D. Scudder of Wellesley, and other prominent literary writers have entered enthusiastically into the work of this course.

The outline of studies is as follows:

1. Introductory Study.

2. Zoroaster and the Sacred Literature of Persia. 3. The Literature of Egypt.

4. Egyptian Hieroglyphic Writing. 5. The Book of the Dead.

6. The Golden Age of Assyrian Literature. 7. Cuneiform Writing. 8. Sanskrit and the Ancient Literature of India.

9. The Golden Age of Hebrew Poetry. 10. Hebrew Manuscripts. 11. Homer and the Great Greek Epics.

12. Homer's Iliad. 13. Confucius and the Chinese Classics. 14. Chinese Writing and Printing. 15. Golden Age of Grecian Literature.

16. Socrates and the Socratic Schools. 17. Demosthenes and Greek Oratory. 18. The Greek Drama.

19. The Augustan Age of Roman Literature.

20. Virgil's Æneid.

21. Cicero and Roman Oratory. 22. Dante, the Greatest Name in Italian Literature 23. Dante's Divine Comedy. 24. Homer, Dante and Milton

25. Cervantes and the Golden Age of Spanish Lit. erature.

26. The Elizabethan Age of English Literature. 27. Moliere, and the Age of Louis XIV.

Miss Mazie Mather of Napa is the guest of Mrs. John H. Norton of West Twenty-eighth street.

Mrs. Herman H. Kerckhoff will receive this afternoon and on the afternoon of the 21st inst., at her new home, No. 1225 West Adams street.

Mr. and Mrs. S. S. Spler of New York are visiting relatives in this city. The engagement is announced of Miss Louise Jastro, daughter of H. A. Jastro of Bakersfield, to Mel Chadbourne of Los Angeles.

Mr. and Mrs. W. S. Culver of Brooklyn, Mich., are staying at the Bellevue Terrace.

Mr. and Mrs. Jack Lippman of Johnstown. Pa., are visiting their parents, Mr. and Mrs. E. Greenbaum, of No. 517 Cherry street.

Mr. and Mrs. M. Carrisosa have left for Phoenix, Ariz., to visit friends.

Miss Emma A. Russell returned yesterday from Riverside, where she visited Miss Emma Judge, formerly of this city.

Invitations have been issued by G. A. McEifresh for the marriage of his daughter. Mabelle, to Horace Rexford Tibbetts, February 28.

Mrs. S. S. Spler and Mrs. Jack Lippman will be pleased to see their friends at No. 1817 Cherry street.

Mr. and Mrs. W. H. Spaulding of Oconomowoc, Wis., have quarters at the Adelmo, No. 731 South Broadway. They will visit all points of interest in the city and surrounding country, including Catalina Island. Mr. Spaulding has a large surmer hotel on Leemain in the city until April 1.

Union Pacific Railway Agencies. Union Pacific Railway Agencies.

OMAHA, Feb. 13.—Is is rumored at Union Pacific headquarters that the Union Pacific will not, after all, abandon its agencies in Portland and other Coast points in the Oregon Railway and Navigation Company's territory. The ticket agents have been dispensed with, and the agents of the freight department have not been relieved. The general opinion at the headquarters is that they will not be relieved, though those high in authority are non-committal. The fact that the changes have been made in Butte in both departments and at other points in the passenger departments lends color this story.

Outcome of Duck Hunt.

Outcome of Duck Hunt.

VICTORIA (B. C.,) Feb. 13.—Sunday morning ex-Alderman Richard Kennon, John M. Cordell, miner, and William Kelly, fisherman left Nanaimo to shoot ducks. Not returning, friends grew, alarmed and set out to search for them. The search was kept up all yesterday and resumed this morning, when their boat was found lying on the mud banks under water and the body of William Kelly was plainly visible from the surface. The body was recovered and brought to the city, and a number of people immediately left for the scene to grapple for the other bodies. All three of the men were well known and leave widows and families.

It was agreed at this conference or inquipition (whichever it may be called matters no great amount in this connection,) that after the expiration of the greeent contracts with the companies owning lines of private cars, the shippers of fruit shall not be interested in the cars which carry the fruit. This is excellent so far as it goes; but is it not a fact that the whole system of

There has been considerable of a row during the past few days regarding the matter of city printing, and as The Times is merely a looker-on at the It is r ruction it may not be amiss for us to offer a few remarks on a subject which

bids for this work, but as it has been the policy of the Council to pursue a cheap method regarding city advertis-ing rather than the business method pursued by astute commercial adverisers, we have some time since con-luded that it was useless to make bids, and therefore have left our cheap conemporaries to fight the thing out among

hemselves.

It is usual in asking for bids for public work of any character to specify that the contract is to be awarded to the lowest and "best" bidder; in the Cuba wants peace and freedom to the lowest and "best" bidder; in the Cuba wants peace and freedom to the cuba wants peace and freedom money is limited by the ability of the government to redeem every dollar of valueless paper in something that has been the rule to award the contract to the lowest bidder, regardless of the "best" feature of the bidding entirely, overnment did not expressly place promise upon its paper money, the would be worthless. For instance, it might be very inexpensive, indeed, were an advertise-ment printed in a paper which had a circulation of but one copy, but what use such an advertisement would be to the people of the municipality it is not necessary to mention. But if the "cheap" method is to be followed then it ought to be followed to its legitimate end; the job should be given to the lowest bidder, regardless of all other

the newspaper or papers in which it is proposed to insert advertisements, and on this basis of circulation, contracts should be awarded, the award being on the basis of the lowest rate per thousand of circulation. Any other method is not in accord with the demands al-ways made of bidders for work in that hids must be lowest and "best." As in times past, The Times is ready to offer to the city of Los Angeles bids for city to the city of Los Angeles bids for city printing based upon the amount of pub-licity obtained, but we do most de-cidedly object to furnishing porterhouse steaks for the price of round. So long as the City Council proposes to do busi-ness with the dealers in round steaks. The Times has no bids to offer for do-

ing this very important work.

Meanwhile we wish our fighting con temporaries joy of their row, for which-ever wins neither of them ought to have the contract and neither could ever get it on its merits were right methods pursued in making the award.

The appointment of M. H. de Young. When the farmer or fruit grower goes into the business of producing, tak-ing all the chances of the enterprise, it is certainly the duty of the transporgives assurance that the interests of is certainly the duty of the transportation line which serves him to supply such rolling stock as will set his product down at its destination in the best possible condition, and when the producer is called upon to pay tribute, directly or indirectly, to a private car line rectly or indirectly, to a private car line. The he is robbed to just that extent. The citrus-fruit industry of Southern Cali-fornis pays the railroads in freight expositions and is possessed of such a capacity for hard work that his ap-pointment may be looked upon as one of the very happiest that the Presi-dent could have made. In congratulating Mr. De Young upon his appointmen to this highly honorable position The Times also offers its congratulations to der to get the fruit to market in mer-chantable condition? There can be but one answer to this query.

They are moving on the Modder, the are moving on the kops, they are flank-ing of the Boers, and the Boers are do-ing a little flanking on their own acmake of the farmers and fruit growers, who have constantly to battle with bugs, frosts, dry seasons and conscience-less corporations in order to exist. Of the 4,000,000 per annum, how much ount. But the killing has not yet taken on that wholesale and slaughter character which makes the blood curdle and the heart stand still when one reads of the fury of the charge and the deadliness of the battling. There are signs in the air that shortly we are gothe way of "rake off?" It might possibly be mighty interesting to have this but it probably won't ing to hear some news from the front in South Africa that will make things over there look like that war which is "the real thing." [A. P. NIGHT REPORT.]

WASHINGTON, Feb. 13.—The Senate Committe on Privileges and Elections today concluded its hearing of Mr. Neill in the Clark investigation, and also heard William McDermott, another of the close friends and the contract of Senator Clark in the contract of Senator Clark in

Probably the most interesting testimony of the day was a statement made by McDermott to the effect that Clark had made him a present of \$5000 after his election to the Senate to pay McDermott for his services in the contest. He also testified that he had expended about \$2,000 in the legislative and Senatorial elections. The major portion of this money had been received from Clark's son, but the witness contended that it was all spent for legitimate purposes.

Mr. Neill asserted that he spent only a very limited sum of money and said that all that he did spend was his own.

sumed its consideration of the Clark case today, J. M. S. Neill of Helena, who was on the stand when the committee adjourned yesterday, was recalled. He was questioned closely bex. Senator Edmunds concerning the impression letter book from which he cut the copy of his letter to T. J. Johns of Lewiston.

Neill said that he had out the letter out of the book Saturday hast, and Monday had expressed it to Helena. Mr. Eumunds commented upon the fact that the book had been sent back on the very day that Neill was to go on the stand as a witness. Neill said he would intercept the book and bring it back, but that he would not agree that the entire book should undergo inspection. The witness was cross-examined by Campbell.

"Did you do any work for Mr. Clark during the last Senatorial campaign?"

"I did all I could in my paper and otherwise in a legitimate way."

Asked if he spent any money in the campaign, Mr. Neill said he did, but it was his own. He said he did not handle any money except such as one would naturally spend—not to exceed in the aggregate \$1000.

Speaking of Atty.-Gen. Nolan's transcript of his testimony before the Lewis and Clark county grand fury. Mr. Neill declared it was colored throughout. He gave an instance in which he was quoted as saying that he did not know that any money was corruptly was intentionally left out."

"Has Mr. Clark a mortyage for \$24,800, and I pay him his interest regularly," responded Neill! He was then excused. Charles Ralph Jacobs, a carpenter from Butte, testified to a conversation which he said he had with G. C. Ca-

The Senator arrived here last night, and this morning was taken for a drive to the vineyards and Roeding nursery. On his return he held a brief informal reception, during which numerous prominent men from all parts of the county paid their respects.

This evening a public reception was held at Einstein Hall. Beside Senator Bard on the platform, were H. Z. Austin. chalrman of the Republicantin. "He has a moregage for \$28,500, and I pay him his interest regularly," responded Neill? He was then excused. Charles Ralph Jacobs, a carpenter from Butte, testified to a conversation which he said he had with G. C. Cason, a witness for the prosecution. He had, he said, gone to Cason's office when the latter asked him if he wanted to make "some money easy." "I replied," said the witness "that there was no one more inclined to make easy money than myself. He then told me that all I had to do was to go to the Daly people, tell them a story and get my money. He said: "They gave me \$500 for my testimony, and you might as well get some of it. He then said he would go to the other side and see what he could do."

The witness also said that Cason had referred him to Mr. Campbell, He further said that he had come voluntarily to expose Cason, having seen his testimony before he came in the Montana papers. He had not wanted to see Mr. Clark "done up," the latter being a friend of his.

Jacobs said that he had written Cason while he was in Baker City, Or., telling him if he came to Washington to testify against Clark he (Jacobs) would expose him, notwithstanding he had originally promised Cason that he would say nothing of their conversation. In that conversation there had been no reference to the character of testimony which he was to give and get money for.

With the resumption of legislative business at Frankfort in prospect, and the transfer to the courts of the claims of the rival Governors, as seems likely to be brought about within a few days, the clouds are rapidly lifting, and it is believed normal political conditions may be restored in the State in two or three weeks. So much time at least will be required to secure the adjudication of the issues between the parties. If the Federal courts decide they have jurisdiction, it will take much longer.

TIME SET FOR HEARING. CAPT. ROBERTS IS TO BE TRIED

NEXT WEDNESDAY. The Commission Hopes to Conclude the Trial in One Day—Attorneys for ts May Have a Few Cards Up

ayor said that he was desirous of sposing of the matter if as short a me as possible. To this end it was coposed to begin the hearing at 9 clock in the morning, as by holding merning and afternoon session and ossibly one in the evening, the com-classion hopes to dispose of the case in as day.

consideration before. The contention of the attorneys for Roberts was that no man who made charges against another should presume to sit in judgment on that man, and it will be remembered that a temporary restraining order was issued from the Superior Court prohibiting the de facto commission from trying Capt. Roberts. Several grounds were alleged in the complaint upon which the order was issued, but the one just cited was prominent among the reasons given. It is probable that there is some method in the arrangement of the charges so as to bring the Mayor's complaint of insubordination last, and it is not improbable that the attorneys for Roberts Intend to make a strong point of the fact that the Mayor is a member of the fudicial body before whom the charges are tried. Mayor Eaton says that his attorneys inform him that he has the right to sit as a member of the board for the consideration of his own charge, which he prefers to regard in the light of a report. As soon as the order of the charges had been fixed yesterday

as to necessitate the attendance of numbers of character witnesses and make the trial a long drawn out affair, he will prevent, it if possible. Three members of the present board have once voted to dismiss the charges, the reasons given being that some were made by irresponsible persons, while others bore the taint of malice and prejudice. This being the case, it is more than likely that Capt, Roberts will be given the benefit of the doubt and abundant opportunity given the attorneys to justify, if they can, the previous action of the present Police Commission. There are indications that the hearing will consume more than one day.

RESTAURANT LIQUOR LICENSES.

RESTAURANT LIQUOR LICENSES.

The most farcical procedure enacted before the Police Commission in months took place yesterday when the board attempted to examine a number of saloon men holding restaurant liquor gicenses regarding the character of the places which they kept. At the last session of the commission Mr. Ling stated that he was satisfied that a number of parties who held restaurant liquor licenses were not obeying the law. Despite the fact that the Chief had presented a report showing that all the places in question had a full restaurant equipment. Commis-RESTAURANT LIQUOR LICENSES

sionally propounded a question. Mr. Ling conducted his cross-examination with some asperity and after the hammer-and-tongs style of the criminal lawyer. He would ask the holder of the restaurant license whether he owned a restaurant. How much bottled beer he sold on Sundays? How many mixed drinks? How many chairs had he? How many tables? Did he own a range? Ever build a fire in it? Have any cooks? Any waiters? Ever sell any sandwiches. How much did a sandwich cost? Get beer with it? More beer sold on Sunday than on other days? and so on, through a long list of questions. Then the commissioner from the First Ward would stop to take breath and turn the saloon man over to the tender mercles of Mr. Scarborough, who handled the proposition with velvet fingers in some such style as the following: "You conduct a regular restaurant, don't you? And you serve regular meals? And you always obey the law? Well, that is all the board wants to know. I move that the information, if there be any against this man, be dismissed." Thus matters proceeded for over an hour at the session and when it was over he vented his pent up humor in loud rounds of merriment.

Of course all the saloon men, when questioned, admitted that they had a

Of course all the saloon men, when questioned, admitted that they had a full restaurant equipment in full running order. It was quite a character study, the lines of faces around the and conditions of its of the man and conditions of the man and the matter was lead to secure any accurate idea regarding the elaborate explanation entered into for its benefit. SOCIETY WANTS A ROOM. The library board held a short ses-sion in the library yesterday afternoon. The most important matter under conattorneys inform him that he has the right to sit as a member of the board for the consideration of his own charge, which he prefers to regard in the light of a report. As soon as the order of the charges had been fixed yesterday attorney Rogers thanked the board and started to retire.

behalf of the society, states that the library and museum could be so arranged that it would prove attractive to the public, to whom free access would be given. The committee also asserts that such an exhibit would interest people in the historical annals of Southern California, and would impress upon them the necessity for a large fireproof building adequate to the needs of the library and a museum. The society yearly publishes a volume devoted to local history, but has no money to pay for permanent quarters, and so the city is asked to furnish housing for the library and museum. No action was taken by the board, the matter being referred to the Book Committee.

Two new books have been added to the reserved postal list during the week. The first is "Red Pottage," by Mary Cholmondeley, and the other, "De Willoughby Claim," by Frances Hodgson Burnett.

A. T. Stewart, one of the city's money brokers, got a jolt of considerable voltage at the hands of Judge Allen yesterday morning, but he didn't get all he wanted, as prayed for in the complaint of a foreclosure suit. The action was to foreclose a chattel mortgage on a lot of household furniture, securing a promissory note for \$225, dated October 30, 1897, payable ninety days after date, and bearing the prolific rate of interest of 4 per cent. a lific rate of interest of 4 per cent. a month—almost 50 per cent. a year.

Judge Allen has some very decided views of his own—other people have similar ones, about this sort of money lending, and once in a while he

money lending, and once in a while he expresses them with startling vigor. Usury was the olden-day word for such lofty interest; these days it seems to be sharp business.

"Any man who would charge such a rate of interest ought to be convicted of a felony and sent to the penitentiary," were Judge Allen's words in effect yesterday, as soon as he learned the nature of the action before him. He then took the matter into his own hands and adjudicated the issues along the line of "fireside" law, and brought the plaintiff to the terms of the court in a very mild but uncompromising way.

The defendants to the action were J.

By way of answer to the complaint, the defendants averred that on the 8th of last September, at plaintiff's request, their son, A. Carter, concluded to further secure the note of 1897 by executing his own promissory note for \$225, at 8 per cent. per annum, and they felt that this amount ought to have been credited by plaintiff on his account against them.

Judge Allen would have nothing to do with the second note, and brushed it aside. Knowing the circumstances in the case, he told the litigants before him what he was going to do. He would allow plaintiff 1 per cent a month—no more. If that were satisfactory, all right; if not, all right, Plaintiff concluded that the compromise was

ATTEMPTED TO COMMIT RAPE. Charles Dunbar, who has been on

Charles Dunbar, who has been on trial in Judge Snith's court for the past two days, charged with attempting to outrage little twelve-year-old Pearl Duncan, near Agricultural Park, about the middle of last month, was convicted by the jury yesterday afternoon. A verdict of guilty was returned at 4:32 p.m., after the jury had been out only twelve minutes. Dunbar will be sentenced on Friday.

The little Duncan girl, who lives on Thirty-fifth street, had gone after the family cow that was staked out near Fortieth street, and close to the Redondo railway line. It was about 6:30 clock and twilight had grown very dim. Just after she had picked up the chain to lead the cow home, she heard Dunbar approach and turn his head so that she could not see his face. Suddenly he sprang upon her, seized her by the throat, and gave her a powerful slap. She succeeded in raising a weak scream, and then fell in a swoon. The negro was frightened from his fiendish purposes, and the girl lay unconscious by the roadside for almost an hour.

The defense attempted to show that Dunbar was not the depraved man who had let his abnormal passions get control of him, but that it was a case of mistaken identity.

Rowell's alleged offense occurred last October, when somebody entered the residence of Mrs. J. K. Hall at Angeleño Heights and made away with \$500 worth of diamonds and valuables. Rowell attempted to prove an alibi, swearing that he was at Charley Bernard's saloon on Court street, when the burgiary was committed.

One of the grounds—if there be others—on which a new trial is asked is the allegation that one or more of the jury actually viewed and thoroughly investigated the premises of Bernard's saloon of uring the course of the trial. Their sames, counsel for the defense, does not know, and a request was made yesterday that the twelve jurors who tried the case be subpeened in the matter as witnesses that a thorough investigation might be made.

But Judge Smith shook his head fiercely and said that he could allow nothing of that sort. The law gave him no authority to do so, and the entire point could be covered by affidavit. The whole matter was then continued until Saturday. Rowell, meantime, reposes in the County Jail. sizes and style: Four-inch is easel medallion, 45 cents, asif inch mat or silk-finish 45 cents. Golden Medical Discovery covers a period of more than thirty years and the treatment and curs of more than half a million people. It is a notable feature of these cures that in a large proportion of cases they were effected in men and women whom the doctors had failed to help, and in many cases abandoned to their fate. It is at this point that many take advantage of Dr. Pierce's offer of a free consultation by letter. Thousands of people who have not the courage to try the "Discovery" write to Dr. Pierce, and, encouraged by his reply, revealing at once his understanding of the disease and his sympathy with the sufferer, they begin to take the first step toward health.

the heavens. There is a sense of fear and dread of impending danger. Forms seen through this for of the mind are magnified and distorted, isoming large and threatening like spectre of the Brocken. It's a miserable feeling; miserable for the sufferer, miserable for his friends and for his family. Does that condition of degreesion ever some to a man condition of degreesion ever some to a man or woman without causing the cry in the secret heart.

"I WOULD THAT I WERE DEAD?"

And if the condition becomes more frequent, the rifts in the fog more rare, does not the thought of self-destruction haunt the depressed mind? Like some evil peeping frewhich flattens itself against the window and watches us as we sat, like evil eyes that turn through the darkness of the sleepless hours and hold the gase in terrified faccination, so this thought of self-destruction haunts the despondent mind and, like the ghost of Banque, will not down."

These are facts. They are common facts. Is it any wonder that some day in such a fog of mind, haunted and hounded by this one thought of escaps from a life of misery, the man sends a bullet into the aching heart and stills it? He may be rich, his family may adore him, his friends may be legion. But through the fog of this depression he sees powerty stalking him. His "fose are those of his own household," he thinks, and those who call him friend are ploiting his ruin.

BUICIDAL DESPONDENCY
Is a common result of a diseased condition of the stomach and organs of digestion and the despondency and the despondency and the despondency of this depression he sees powerty stalking him. His "fose are those of his own household," he thinks, and those who call him friend are ploiting his ruin.

BUICIDAL DESPONDENCY
Is a common fears the digestion suit of the contract of the owner, and or the stomach and organs of digestion in the large correspondence of Dr. R. V. Pierce, chief consulting physician to the Invalide Rocel and Surgical Institute, Buffalo, N. T., the feature of mendal suffering its always prom

fected by the stomach, is cured through the stomach.

"Your kindness to me I can never forget," writes Mrs. Josie E. Clark of Enterprise. Shelby county, Mo. "I cannot express half my feelings of gratefulness to you. I had despaired of ever getting well. I had been in bad health for twelve years. Had aches all through fine, numb hands, cold feet, and everything I ate distressed me; bowels constipated, was very nervous, depressed and despondent. In fact, I can't express half my had feelings to you. When I first wrote to you I thought I could never be cured. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

IT'S NO EXPERIMENT to use Dr. Pierce's Golden Medical Discovery for the cure of diseases of the stomach and other diseases or the stomach and other diseases originating in a diseased atomach. The cure follows almost as an arithmetical certainty. It's almost as sure that two and two make four. We say almost as sure, because as a matter of record two people in every hundred do fall of a perfect cure. But the hinety-sight people in that hundred who use "Golden Medical Discovery" fairly and faithfully are perfectly and permanently cured.

LONG BEACH.

SUNDAY CLOSING QUESTION.

LONG BEACH, Feb. 13.—(Regular Correspondence.) The City Trustees failed to meet Monday evening. Trustees will not act on sundays will accordingly net be acted on before next week.

The petition has been the subject of much discussion locally. It is now so short a time before the city election that it is likely that the City Trustees will not act on it before that event. Under ordinary procedure it would take about three weeks to enact an ordinance such as is asked and to put it into effect. The matter of saloon regulation is almost sure to be affected by the election and the wisdom of new legislation which may be materially changed before is is fairly in force is doubted.

The idea of a vote on the question of saloon degulation entirely separate from the belioting on candidates for municipal offices at the coming city election seems to be gaining ground.

A remarkable fact in connection with the esawall construction is the small number of men who have been hurt. As far as reported only two other men beside Kavanaugh have been injured while on the work. One of them was employed in building the barges and gut one of his feet with an ax, but quickly recovered. The other one was an Italian, who received some painful bruises while working on the rock. Those are said to have been the only injuries of consequence that any of the men have received while employed on the work.

MUCH, LUMBER MOVING.

The lumber receipts at this port within the past ten days have probably exceeded those of any prevrous period of that length in the history of the port. Although the price of lumber is high large quantities are coming in from the porthern ports. The reason for the present brisk traffic is said to be the probable scarcity of vessels when the Asaskan summer business shall have opened up and the likelihood that freights will then have advanced.

SAN DIEGO COUNTY.

NEW COPPER COMPANY.

BAN DIEGO, Feb. 13.—[Regular Correspondence.] The Barona Copper Mining and Smelting Company has filed articles of incorporation, with a capital stock of \$500,000. J. B. Boyd, S. M. Daley, J. P. Burt and S. A. Ranney are named as directors of the company. The property that is to be developed is located on the Daley ranch at San Tincente. It was discovered over a year ago, but at that time

the ranch was in litigation, and the finding of the copper ledge was kept a secret. The title to the property having since been cleared, the presence of the copper find was made public. Eastern capitalists have agreed to buy the property if the corporation at present formed for development work finds it as valuable as now seems likely. Development has already proceeded to a seventy-five-foot level, but is to be extended 125 feet farther.

STOLEN HORSE RECOVERED. Sheriff Lacy yesterday recovered in Los Angeles a horse which had been stolen from Frank Ward of Bolsa several months ago. Thomas Pico, a Mexican, was arrested at the time for the theft but was acquitted. The horse yesterday was found in a livery stable and when properly identified was promptly turned over to the Sheriff who had the animal returned to its lawful owner.

FULLERTON. OIL PROPERTY ADVANCING. FULLERTON, Feb. 13. — [Regular correspondence.] There have been a greater number of demands for oil

territory in this district during the last week than during any period in the existence of the field. Available territory has gone up rapidly, and there are but few places now that can be purchased at all. There is nothing on the market that is not higher this week than last, and the advance promises to continue. The reason is found in the fact that all the territory appears to be good. Experts have pronounced it so, and the frequent strikes during the last month have demonstrated invariably a trend covering the entire field in sight. Cafions that were considered remots two months ago are now in line, and the rapid development going shead will make in a short time bonansas where nothing was in sight only a short time ags. There is no better demonstration of this than in the Graham-Loftus field, for which a half a million dollars was refused only recently. Six months ago Mr. Loftus was laughed at in this field, and the hole he was sinking was not considered worth more than the pipe that was in it.

TRIED TO STAB HIM.

Three Mexican woodchoppers named Pomposo, while drunk last night, went to the home of Morello Costello and endeavored to stab him. Costello was in bed, but awakened when the Pomposos broke open his door, and when one of them drew a knife he jumped through a window and escaped. The Pomposos followed him two blooks, and then abandoned the chase. Returning to the house they wrecked the furniture. Today they were sentenced to five days in jail each.

TREATY AND CANAL FAVORED.
SANTA BARBARA, Feb. 13.—[Regular Correspondenct.] In response to a telegram from W. R. Hearst to Mayor Storke, suggesting the danger that Santa Barbara would be exposed to in case of war from hostile fleets, should the Hay-Founcefote treaty be ratified, and the Nicaragua Canal built, under its provisions, and asking an expression of the sentiment of the people, a mass meeting was held at the City Hall tonight and was largely attended by representative citizens. Several addresses were made indorsing the treaty, and the policy of the administration, and resolutions were adopted in favor of the construction of the canal and urging our Congressional representatives to aid in bringing about its speedy completion.

Grape-Nuts.

Letters are coming from all over the country saying that the writers have been led to eat double or more than double the allowance of Grape-Nuts because of the fascinating flavor.

The result of overeating this food is the same as in overeating candy, or any other delicacy, the system gets more than it requires, and there follows a spleening against it for a time.

Confine your allowance of Grape-Nuts to three heaping teaspoons for the cereal part of your meal, and the food will be a daily delight to you.

If you have been overeating, try Grape-Nuts in the proper quantity, and, our word for it, you will stick to them, and obtain day by day the valuable elements or particles which nature uses to rebuild and nourish the brain and nervous centers all over the body. TREBELLI CONCERT POSTPONED.

DE LANO CLUB CONCERT.

The Trebelli concert, which was to have been given at the Burbank Theater yesterday afternoon, was postponed, owing to a slight indisposition on the part of the artiste.

The programme, which was to have been given yesterday, will be given Thursday afternoon. Manager Morosco of the Burbank is planning for a second concert to be given Friday.

Mile. Trebelli leaves for a Canadian tour immediately after her Los Angeles engagement, and later fills an engagement as soloist in an oratorio performance by the Boston "Hander and Haydn Society," the oldest and probably the leading choral organization in America.

While one may question the tinkling mandolin, the banjo and the guitar, with their very limited possibilities, as being good whicles for the interpretation of modern classical, or even of the more "popular" music, yet the entertainment given by the C. S. de Lano Guitar, Banjo and Mandolin Club, at the Y.M.C.A. Hall, last evening, is worthy of complimentary notice, and furnished an evening of enjoyment to a fair-sized audience.

Because of the fact that Mr. De Lano does not confine the playing or his class, he should perhaps be commended in oultivating a taste for the better class of music among its devotes. Selections from Verdi, Rubinstein. Caibulka, Godard and others, besides compositions of Mr. De Lano and H. H. Fish, were played, the club playing with good taste, precision and considerable expression. Mrs. Grace Miltimore Stivers contributed a number of pleasing and artistically-sung compositions.

INTERESTING SESSION BUT A SMALL ATTENDANCE.

The Civic League met yesterday afternoon at 3 o'clock in the rooms on South Broadway recently vacated by the Friday Morning Club. The attendance was small.

Mrs. I. L. Creig presided. Considerable interest was shown and many suggestions were made regarding the work done in the city schools by way of decoration. Monthly reports were read by the committees on decoration and visiting, showing the work done during the month past.

The most interesting feature of the afternoon was a report on the Garvansa school, read by Miss M. E. Abbott. Her report showed the condition of the school to be very bad. When the annexation took place, she said, all the fixtures were removed to the county schools, leaving but four chairs in the building.

The matter of inviting school children under the age of 14 to join the organization was discussed, and a project of introducing the matter to the pupils, through their teachers, was favored, but no action was taken.

The league will meet again next month.

Artists' Reception.

Artists' Reception. Artists' Reception.

An invitation reception was held in Blanchard Hall yesterday evening by the artists, whose studies were thrown open for the entertainment of their friends. The studies, halls and other rooms were handsomely decorated with palms and forns. Edward S. Warren had as his guests the Throop Mandolin and Guitar Club of Passistan and delightful music was furnished throughout the reception hours. Members of the Cumnock School of Oratory entertained with dancing the last hour, and Miss Frances Davis entertained her friends with a Dutch supper in her music studie. Bach artist had planned some delightful diversion for the entertainment of their guests.

PROGRAMME FOR FIELD DAY.

ETHICAL CLUB OFFICERS.

R. K. Pitser of Pomona. business manager of the Pomona-U.S.C. field day, visited Manager W. R. Guiberson of the local track team yesterday. Final arrangements were made for the track meet on February 22. The programme of events, as agreed upon, is as follows: 220-yard dash, broad jump, one-mile run, pole vault, 100-yard dash, putting 16-pound shot, 120-yard hurdle, 440-yard run, throwing 16-pound hammer, running high jump, one-mile run in quarter-mile relays.

The local field day for the university will take place Saturday afternoon. The team for the dual meet with Pomona will be selected from the winners in this competition.

The Young Women's and Young Men's Christian associations of the college gave a reception last evening in Aristotelian and Athena halls on the third floor of the college building. A general social time was enjoyed. Games and music furnished the entertainment. Refreshments were served by the young ladies. The following made up the Committee on Arrangements: Misses Georgia Holman and Helen Hoose, Messrs. David Loofbourrow, H G. Barnhardt, R H. Flint and John Nelson. Misses Ethel Hardie and Florence Tilden and Messrs. R. S. Fisher and M. W. Beckwith were the Reception Committee.

The University Ethical Club held its regular monthly meeting on Monday evening at the home of Mrs. M. Burton Williamson, No. 1060 West Jefferson street. The annual election of officers took place. Mrs. Robert L. Craig, president of the Los Angeles Civic League, spoke on "The Ethical Purposes of the Civic League." The newly-elected officers are: George Cochran, D.D., "resident; E. R.
